

GF165

16"/40 cm

Gas Powered Blower

Tried and true, tested and trusted, conventional ventilators have stood the test of time. The GF series are the PPV fans that helped to build the RAMFAN brand in the industry and these economical gas fans are well known for their durability.

Compact and light with outstanding close range ventilation using TurboForce™ technology to generate stronger, faster and more focused airflow than possible with conventional propeller designs.

Specifications

Model	GF165
Part	GA5006
Weight	84 lbs / 38 kg
Impeller	21-Blade
Dimensions (h/w/d)	22 x 20.2 x 20 in / 56 x 51 x 51 cm
Engine	Honda GX160 4.8 Hp / 3.5 kW
Noise	96.2 dB@3' (1 m)
Run Time	2 hrs 06 min
Approvals	CE AMCA

Note: Output changes as setback from the opening changes. Single door airflow is per AMCA 240-6 testing. This data derives from 0" static pressure. Real world results will be substantially reduced by structure backpressure. The GF165 tested at 4ft (1.2 m) setback at 16° tilt without stator vanes.

AMCA 240, as defined and tested by the third-party Air Movement and Control Association (AMCA), is tested through a standard area opening which represents a single-door structure opening most often used in fire fighting PPV operations. This test procedure is published and is the most accurate method for PPV airflow testing that currently exists. AMCA's testing center is available to all manufacturers of ventilators for performance verification to this standard. Due to its standardized, published testing procedure and third-party status, this is known internationally as the best testing method for comparing PPV fans. Verify performance data online at AMCA.org.

Performance

Airflow	
Opening Size (Single Door)	12,906 cfm 21,940 m³/hr

Available Accessories

Cooling Collar
Order #ED-MIST16

BigBore™ Exhaust Diverter Adapter
Muffler Fitting
Order # GF7110CZ
Compatible with Honda motors

Exhaust Diverter Hose
2" x 12' (5 cm x 3.6 m)
Order # GF7115

16" (40cm) Multi-purpose Accessory Kit
Order # BG16LFA
