

GX500

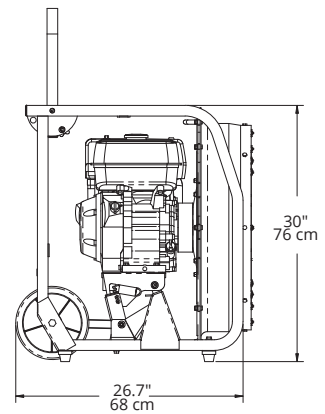

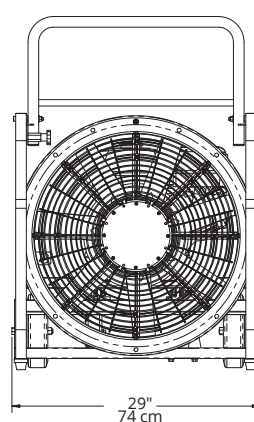

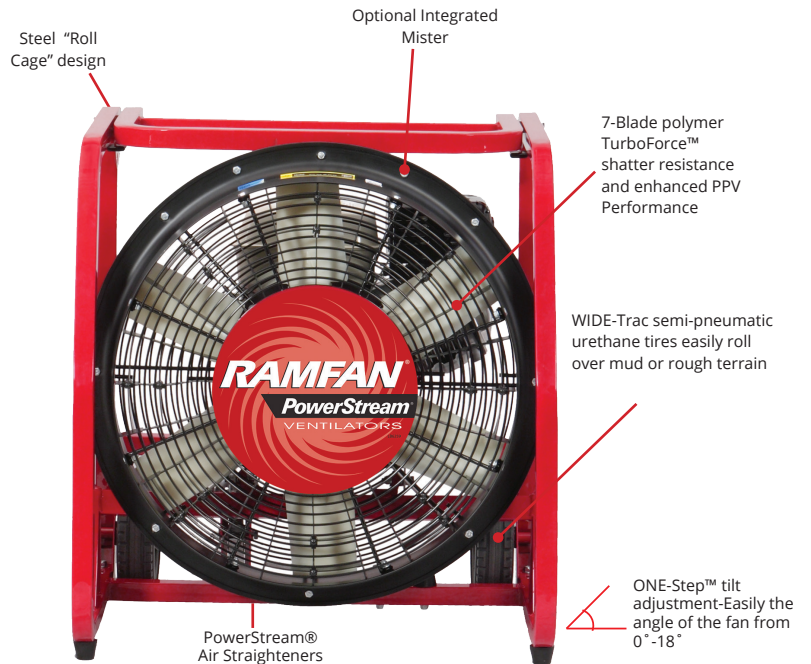

24"/60 cm

Large Structure Ventilator

PowerStream® air straighteners produce a powerful, straight, focused beam of air; allowing the fan to be set back further from a structure's entrance without sacrificing PPV performance. The GX500 offers superior ventilation with flexible positioning, less equipment clutter and reduced noise inside the structure. With the large amount of airflow, the fan is powerful enough to use for large structure ventilation.

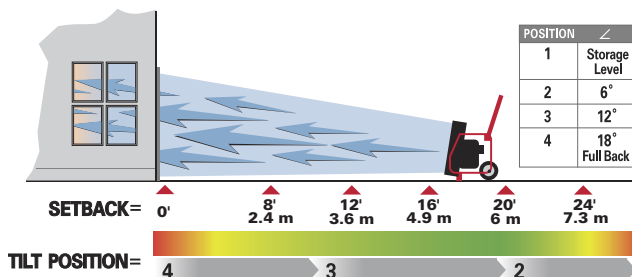

Specifications

Model	GX500
Part#	GD5005, GD5003
Weight	137 lbs / 62 kg
Impeller	7-Blade
Dimensions (h/w/d)	30 x 29 x 26.7 in / 76 x 74 x 68 cm
Engine	Honda GX270 8.5 Hp / 6.3 kW
